

As parent(s) of student(s) in the State of California, we hereby sign this letter in stern protest to the proposed Vaccine Mandate imposed by Governor Gavin Newsom and the State of California requiring all school aged children to be vaccinated to attend public or private school. We contend, based on medical scientific data, as provided by the Centers for Disease Control and Prevention (“CDC”), that the mandate is NOT warranted for children within this age group as the United States national percentage rate of death in children ages 0-19 from Covid-19 as of October 9, 2021, is .00003% (the respective rate in California at 0% based on the most recent 7-day rolling average). In addition, based on recent scientific studies, pursuant to the CDC and the vaccine manufacturer’s warning labels, as well as real time occurrences reported by reputable news networks, the available vaccines of Johnson & Johnson, Pfizer and Moderna have proven to have serious side effects, including, but not limited to myocarditis, blood clots, and death, especially prevalent in adolescents. Furthermore, the vaccine has not been proven to prevent the infection or transmission of Covid-19 as many vaccinated individuals have since contracted and transmitted Covid-19 (please also see the recent study conducted by Harvard School of Public Health, published on September 30, 2021, conducted across 68 countries and 2,947 counties in America that showed a correlation between highly vaccinated populations and an increased number of Covid cases suggesting not only that the vaccine is not effective enough to stop transmission of the virus, but that it may be contributing to the increased transmission of the same). Hence, there is no justifiable or legal reason to risk the health of our children by injecting them with a currently experimental vaccine for a virus that bears de minimis risk to them when the proposed vaccine will not necessarily prevent them from contracting Covid-19 to begin with. We sign this letter to preserve our human and parental rights and that of our children under the Constitution of the United States of America and California and to make it known to whomever it may concern that, should the proposed vaccine mandate for school children be enforced, we the undersigned will effectively remove our children from the California public and/or private school system immediately upon enactment of the same.

Sincerely,
